Version 2 - March 10, 2015

List of known bugs/errors:

- Clicking on picture and clicking on target link twice directs you to winner page / completes the game without clicking on a link to the target.
- Add Friends allows multiple friendships between 2 of the same users
- Add friends page background stretches when inputting text
- Add friends page list doesn't update when adding friends
- Pressing back on certain screens results in a grey screen
- Certain disabled / changed attributes pop up briefly (-1 value to moves, search bar on top of browser).
- Average steps in user page may be long, causing chart to look weird
- User Page Win/loss and Attempts ratio not implemented
- Game sometimes crashes (seems to only occur when first running program)
