February 12, 2015

Actions to stop doing:

Not updating Jira / scrum board / burnup chart.
Talking about individual progress right before scrum meeting.

Actions to start doing:

Utilizing Jira more often.
Comment code more regularly.

Actions to keep doing:

Comment on commit pushes.
Meetings.

Work completed (+)/not completed (-):

- + As a developer I want to install and learn the basics of Android Studio so I can develop the game (all)
- + As a player I want to see the Wikipedia window (browser window) in the app.
- + As a user I want random start page so the game is more interesting.
- + As a user I want random start target page so the game is more interesting.
- + As a developer I want do some playtesting so that I can debug the product.
- + As a player I don't want to see the navigation buttons.
- As a developer I want to have link tracking so that I can build the statistics for each user.
- As a player I want a profile to be able to see my statistics.

Work completion rate:

User Stories completed: 6
Estimated ideal work hours completed: 20

User stories/day: 0.4
Ideal work hours/day: 1.33
Total number of days of sprint: 15 days.

Burndown Chart for Sprint 1:
