## 1. How to install WikiRacers

To install WikiRacers in your Android device you must have Google Play Store installed.

1. Open Google Play Store and search for WikiRacers.
2. Click on “Install”.
3. Accept the permissions.

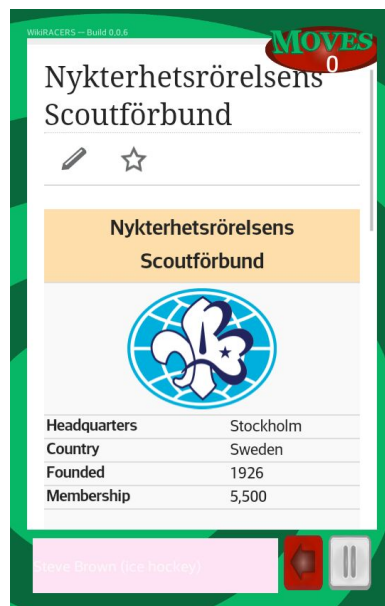

## 2. How to play WikiRacers

The main goal of WikiRacers is to get to a target Wikipedia page from an initial one using the least number of links. To start a game:

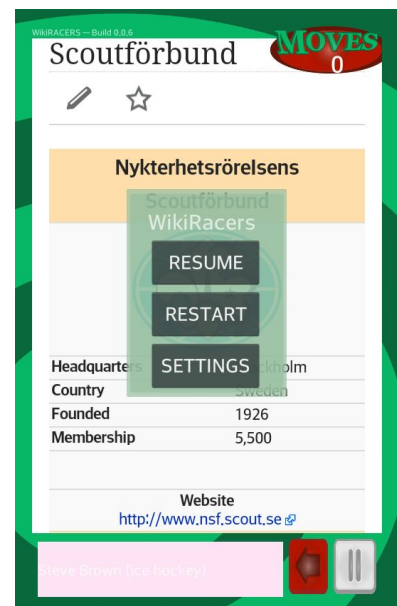

1. Start WikiRacers from your Android device.
2. Click on “Start Game” and a new game will be displayed.
3. Click on the links on the Wikipedia page to load another Wikipedia page. Every time a new link is clicked the counter on the top right corner is incremented.
4. To backtrack click on the red button with an arrow on the bottom right corner.
5. To open the pause menu click on the gray pause button on the bottom right corner. From there user can RESUME game, RESTART or go to SETTINGS.
